Hettich Production Site, Indore, India

About us

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a Centre of the German furniture industry.

Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high quality furniture fittings, with over 6,000 employees in more than 100 countries. The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

STROKE OF GENIUS

KA 5740 is a pocket sliding door fitting for doors that slide out of sight into the cabinet to lie flat along its sides. A stroke of genius and ideal for tv and multimedia furniture or a cocktail cabinet conjured up from nowhere and made to disappear again. A smooth action and high side stability through precision slide. It can be used in combination with concealed hinges and blind panel hinges. The fitting's mechanism also vanishes from view: simply by using face frame hinges.

FURNITURE VERSATILITY

This fitting creates possibilities and flexibility at all steps.

CREATING SPACE

The KA 5740 makes the doors vanish completely in the cabinet body after opening them.

HIDDEN WORKING PARTS

Large domestic appliance can be hidden from view behind the pocket doors.

DOMEN
